SUMMARY.

Seniors, 5
Juniors, 5
Sophomores, 7
Freshmen, 12
Pursuing Select Studies, 19–48
Preparatory Students, 96

Young Men, 144
Young Women, 87

Grand Total, 144
Requirements for Admission to College.

1. All candidates must present satisfactory evidence of good moral character.

2. Candidates for any degree must sustain examination in all the studies of the corresponding course of the Preparatory Department, and in the prerequisites for admission to that course.

3. Students having completed any one of the courses of the Preparatory Department, will be admitted to the corresponding course in the College without examination; but in no case will candidates for a degree be allowed to begin the College Course before completing the Preparatory Course, except by special permission of the Faculty.

4. Students desiring to pursue select studies will be admitted to any class they are prepared to enter.
College Courses of Instruction.

There are three courses of instruction, each extending through four years.

1. The Classical Course, leading to the degree of Bachelor of Arts.
2. The Latin-Scientific Course leading to the degree of Bachelor of Philosophy.
3. The Scientific Course, leading to the degree of Bachelor of Science.

The following schedule includes all the studies, both prescribed and elective, in all the courses. Required studies in the Classical Course are marked (a); in the Latin-Scientific Course, (b); in the Scientific Course, (c). Besides these each student must select, for each term, a sufficient number of studies to make up together with those which are required, three daily recitations in addition to his rhetorical exercises. But no student will be allowed to pursue more than three studies at the same time, in addition to his rhetorical work, except by special permission of the Faculty, granted on the student's written request.

In the Latin-Scientific Course, Greek may be substituted for Latin.

FRESHMAN YEAR.

1. GREEK—Homer's Iliad, Books II-VI. Select Orations of Lysias. Selections from the Greek Historians. (a).
2. LATIN—Cicero de Senectute and de Amicitia. Livy. The Odes of Horace. (a) (b)
3. MATHEMATICS—Olney's Plane and Spherical Trigonometry. Olney's University Algebra, Part III. Olney's Advanced Geometry. (a) (b) (c).
4. HISTORY—England from the Accession of Henry IV to the Death of Elizabeth. England during the reign of the Stuarts; also leading events in the history of France and Germany during this period. England from the reign of the Stuarts to the present time. Text-book, Green's History of the English People. (b) (c).
5. **BIOLOGY**—Packard's Zoology and Gray's Structural Botany. This work will be a study of life as manifested in both plants and animals, and will combine text-book and laboratory work. (c).

**SOPHOMORE YEAR.**

1. **GREEK AND LATIN**—The *Edipus Tyrannus*, or the *Antigone*, of Sophocles. Second Term. (a). The Satires and Epistles of Horace. Third Term. (a) (b).

2. **MATHEMATICS**—Olney's General Geometry. First Term. (a) (b) (c). Olney's Calculus. Second Term. (b) (c). Olney's General Geometry. Third Term. (c).

3. **FRENCH**—Grammar, Modern French Literature, Corneille and Racine. (a).

4. **FRENCH**—Literature of the seventeenth and eighteenth centuries: Molière, Bossuet, Madame de Sévigné, etc., Essays and Dictation. (b) (c). In this department the aim is to give the student a practical knowledge of the French language and literature. Special attention is paid to pronunciation and to the study of the best French authors.

5. **LITERATURE**—Arnold's English Literature, Lectures upon English authors of the nineteenth century and upon American Literature. In this department the students are required to make the text-book a basis of work and to study the authors carefully for themselves. Lectures are given frequently during the third term by the teacher, and students are required to write essays each term.

The students of each course are required to take Literature the first term,—those of the Latin-Scientific and Scientific Courses, the second term, and those of the Scientific Course, the third term.

**JUNIOR YEAR.**

1. **GREEK AND LATIN**—The *Prometheus* of Æschylus, or one of the Comedies of Aristophanes. (a). The *Germania* and *Agricola* of Tacitus, or Juvenal. (a) (b).

2. **GERMAN**—Continued through the year. (b) (c).
3. Chemistry—Barker's Chemistry. General Chemistry, First Term. (a) (b) (c). Applied Chemistry, Second Term. (c)

4. Natural Philosophy—Olmsted's College Philosophy, Kimball's edition. Mechanics, First Term. Physics, Second Term. (a) (b) (c).

5. Geology—Dana's Text-Book. Third Term. (a) (b) (c).

6. Surveying—Schuyler's Surveying Third Term. (c). In surveying the student will have practical work.

Senior Year.

4. Loomis's Astronomy. First Term. (a) (b) (c).

Rhetorical Exercises are required of all students, as follows:

During the Freshman and Sophomore years, declamations and essays.

During the Junior and Senior years, orations and essays.
Preparatory Department.

Requirements for Admission.

Candidates for admission to any of the Courses in the Preparatory Department must sustain an examination in Reading and Spelling, in common school Geography, in Arithmetic as far as Percentage, and in the elements of English Grammar.

Candidates for the Latin-Scientific Course must also sustain an examination in the whole of common school Arithmetic, and in English Grammar.

Candidates for the Classical Course, in addition to all of the above, must sustain an examination in Swinton's Outlines of History or an equivalent.

Courses of Instruction.

The Preparatory Department offers three courses of Instruction:

1. The Classical Course.
2. The Latin-Scientific Course.
3. The Scientific Course.

Each of these courses is preparatory to the corresponding course in the College. In the following schedule the studies of the Classical Course are designated by (a); those of the Latin-Scientific Course, by (b); and those of the Scientific Course, by (c). Greek may be substituted for Latin in the Latin-Scientific Course.
FIRST YEAR.

1. **LATIN**—Harkness's Latin Grammar, Jones's Latin Lessons, Four Books of Cæsar's Commentaries, Jones's Exercises in Latin Prose Composition. (a) (b). The work prescribed for this year is equivalent to that usually required for two daily recitations throughout the year, and during a part of the time the class recites twice a day. Students in Latin are therefore expected to take for the first year only one additional study.

2. **ARITHMETIC**—Wentworth and Hill's Arithmetic. First and Second Terms. (c).

3. **GRAMMAR**—Swinton's English Grammar. First and Second Terms. Swinton's English Composition. Third Term. (c). D. J. Hill's Elements of Rhetoric. Third Term. (a) (b).

4. Steele's Physiology. First Term. Guyot's Physical Geography. Second Term. (a) (b) (c).

5. Civil Government—Young's Government Class Book. Third Term. (b) (c).  

SECOND YEAR.

1. **GREEK**—Harkness's First Greek Book, with Hadley and Allen's New Greek Grammar; Xenophon's Anabasis. (a).

2. **LATIN**—Six Orations of Cicero, and twenty-five hundred lines of Ovid, with special attention to Prosody. (a) (b).

3. **ALGEBRA**—Olney's Complete Algebra. (a) (b) (c).

4. **HISTORY**—Swinton's Outlines of the World's History. (b) (c).

THIRD YEAR.

1. **GREEK**—Xenophon's Anabasis, with Jones's Exercises in Greek Prose Composition, Smith's Smaller History of Greece, Homer's Iliad, Book I. (a).

2. **LATIN**—Six books of Virgil's Æneid, and Roman History. By the constant use of wall maps as well as by means of a text-book, the student is made familiar with ancient geography. The method of pronunciation in use is the Roman. (a) (b).
3. GEOMETRY—Olney's New Elementary Geometry, Plane and Solid. (a) (b) (c).

4. FRENCH—French Principia, Part I, French Reader, Dictation, and Grammatical Exercises, Contemporary French Literature. (b) (c).

Weekly exercises in reading are continued through the three years, and declamations and essays are required each term.

Examinations.

Before entering any of the examinations for admission to either the College or Preparatory Department, all applicants must present themselves to the President, in room No. 6, for enrollment. These examinations, beginning promptly at nine o'clock in the morning, on the days specified in the calendar, will be held in the following places:

Room No. 3. Latin.

" " 8. Greek, Reading and Spelling.

" " 4. Mathematics.

" " 2. Natural Science, Political and Physical Geography, Civil Government, Book-Keeping.

" " 5. French, English Grammar, Rhetoric.

" " 9. History.

Regular Expenses.

Tuition in any Department, - - - - - $8 50 per term.
Room Rent in Upper College Building, - $4 00 to $5 00 per term.
A Matriculation Fee of five dollars is to be paid on first entering the College classes.

All bills must be paid at the beginning of the term.
Situation.

Kalamazoo, the seat of Kalamazoo College, midway between Detroit and Chicago, is one of the most beautiful cities in the country. It is well known for its ample streets, pleasant residences, attractive public buildings, efficient churches, and general spirit of refinement.

College Buildings.

The Upper College Building contains a large number of rooms for the use of young men; also the College Library, and the halls of the Sherwood Rhetorical Society and the Philolexian Lyceum. This building will be thoroughly repaired before the next year begins.

The Lower College Building, known as Kalamazoo Hall, has a spacious chapel and nine recitation rooms, together with the hall of the Eurodelphian Society.

A building designed as a home for young women has been erected, and, it is hoped, will be ready for occupancy by the beginning of the next school year. In this building, table board will be furnished to all students desiring it.

There are also approved private boarding houses near the College, where board, either with or without rooms, can be obtained at reasonable rates. Students frequently board themselves in their own rooms in private houses, or get their meals in clubs, and thus greatly diminish their expenses. Those who desire it can generally find work to do in their leisure hours, and may largely pay their way by their labor.

Apparatus.

Through the liberality of the class of "84," a telescope has been purchased for the College. Its focal length is nearly five feet. The aperture of the object glass is 3\(\frac{1}{2}\) inches. It has seven eye pieces, magnifying from 20 to 200 diameters.

We have also been enabled, through the generosity of the citizens of Kalamazoo to add an excellent microscope to our apparatus. While we have the means of illustrating many principles in Electricity and Pneumatics, we are in pressing need of much more apparatus in the departments of Physics and Chemistry.
Societies, Etc.

The Sherwood Rhetorical Society, organized in 1851, and the Philolexian Lyceum, organized in 1855, are composed of young men, who meet each Friday evening in term time for discussions and other literary exercises. They have commodious and elegant rooms, and good libraries in the Upper College Building.

The Eurodelphian Society, composed of young women, has a handsome room in the Lower College Building, and also meets every Friday evening.

The Officers of these societies for the current term are as follows:

**SHERWOOD:**—C. H. Brownell, President; E. A. Balch, Vice-President; F. L. Rose, Recording Secretary; J. H. Firestone, Corresponding Secretary; W. W. Des Autels, Treasurer; L. D. Dunning, Librarian; W. A. Remington, Janitor.

**PHILOLEXIAN:**—W. H. Pease, President; J. S. Collins, Vice-President; F. W. Stone, Recording Secretary; W. J. Clough, Corresponding Secretary; H. H. Pettee, Treasurer; W. M. Habey, Librarian; H. L. Martin, Janitor.

**EURODELPHIAN:**—N. H. Clough, President; M. A. Boyden, Vice-President; I. Everett, Secretary; G. Clough, Treasurer; M. E. Hoover, Librarian.

There are also two Christian Associations, whose officers are as follows:

**YOUNG MEN'S:**—R. C. Fenner, President; H. L. Martin, Vice-President; F. L. Rose, Recording Secretary; W. S. Corbin, Corresponding Secretary; W. Cockburn, Treasurer.

**YOUNG WOMEN'S:**—B. H. Richards, President; E. Daglish, Vice-President; M. E. Hoover, Recording Secretary; M. F. Young, Corresponding Secretary; N. H. Clough, Treasurer.

The College Index is published monthly by the Students' Publishing Association, of which the officers are the following: F. W. Stone, President; J. S. Collins, Vice-President; E. A. Balch, Secretary; H. H. Pettee, Treasurer.

---

**Library.**

The Library occupies one of the halls of the Upper College Building. It contains about four thousand volumes, and is open to the students for several hours each day.
Religious Exercises.

All students are required to attend the regular daily worship at the chapel, and are expected to attend regularly on the Lord's day at such of the churches in the city as they or their parents may select.

Prayer meetings, conducted by the students, and open to all members of the College, are held each week, under the direction of the Young Men's Christian Association. Opportunity for mission work is afforded to all who desire it.

Discipline.

It is designed to maintain at all times a careful supervision over the students, both as regards their attention to study, and their general habits and deportment.

While the government aims to secure order, and to cultivate habits of prompt obedience to good laws, it seeks, also, as much as possible, to throw the students upon their own consciences and sense of honor, aiming constantly to elevate them to the dignity of self-governing men and women.

Prizes.

Three prizes are offered each year as follows:

1. The Sherwood Prize, endowed by the late Rev. Adiel Sherwood, D. D., of St. Louis, given for the best declamation by a Freshman, at a public contest.

2. The Cooper Prize, endowed by Charles Cooper, Esq., of White Pigeon, given for the best delivery of an oration at the Junior Exhibition.

Painting, Drawing, and Music.

Instruction in painting and drawing will be given to students who desire it, by a competent instructor, on favorable terms.

Students desiring to receive instruction in vocal or instrumental music, will find competent teachers in Kalamazoo, whom the faculty can recommend, and whose charges are reasonable.

Endowment.

The generosity of many friends of the College has added a considerable sum to the endowment during the last year, besides providing for a debt of long standing which had been recently increased.

The present endowment is a little more than $114,000, including as a part of it, several items as follows:—

The Merrill Professorship Fund, $10,000
The Kalamazoo Professorship Fund, 20,000
The Alumni Professorship Fund, 5,000
The Edward Israel Instructorship Fund, 3,000
The Taft Fund, (for Students), 2,520
The Axtell Fund do, 1,000
The Sherwood Prize Fund, 250
The Cooper Prize Fund, 250

That further additions to the endowment are essential is evident. Other professorships should be endowed. The chemical and philosophical apparatus should be greatly enlarged. More ample provision should be made for the library and cabinet, both of which should receive constant additions.

Who will honor himself and serve a good cause by providing for these wants?
PERPETUAL CALENDAR.

EXPLANATION.

The figures in the upper block indicate the centuries of the Christian Era; those above the double line to be used for Old Style, those below the double line for New Style.

The figures in the two side blocks indicate the years of each century.

The figures below the names of the months indicate the days of the month.

The letters in the centre block indicate the days of the week.

Some one of the horizontal lines in this block, taken in connection with the days of the month below, will constitute the almanac for any given month. It is only necessary to know which of these lines to take. To determine the line for any month, the method is as follows:

Look at the top for the century; then to the right or the left for the odd year, and in a line with that, directly under the century, note the day of the week. Find the name of the month, and follow up in the same column till you reach the same day of the week. The horizontal line which you have thus reached is the one which, applied to the days of the month below, constitutes the almanac for that month.

N. B.—Jan. L and Feb. L indicate January and February of Leap Year, and must be used to find the almanac for those months in any Leap Year.
