WOMEN'S LIBERATION SPEAKERS URGENTLY NEEDED!!!

The Speakers' Bureau of the Women's Liberation Coalition announced today that there would be three seminars given in the fall on women's liberation -- two at the YWCA and one at the Ethical Humanist Society. They are anticipating other speaking engagements also at some of the colleges in Westchester as well as various women's groups. New speakers are urgently needed to speak on a variety of subjects connected with women's liberation as well as discussion leaders. If you are interested in becoming a speaker but are somewhat shy or feel that you do not have the experience, please call us anyway. We will train you and give you all the confidence you need. This is a great opportunity to develop speaking skills, writing skills and to get used to articulating in public. No matter what you're goals, such an experience can only be helpful. Please call Susan Falk 723-4406 or Gale Goldman 428-7222 for further information, and plan on attending the next Speakers' Bureau meeting on August 9th, Monday evening at 8:30 P.M. at the home of Susan Falk, 3 Willow Lane, Scarsdale.

WESTCHESTER WOMEN'S CENTER ALMOST A REALITY???

There is a room available on Central Ave. in Hartsdale for $50.00 per month including electricity. There is already a desk in the room and we would put our file cabinet, copying machine and offset machine in this room as well as literature, etc. It would be a tremendous asset to our movement to have a central headquarters in which to work. All of the groups in the Coalition would be able to use this office and the equipment, HOWEVER, we need the support of all of the groups in the Coalition to support this office. If we all make a commitment to it, it can be done. We are interested in knowing your thoughts on this subject. Please call Blanche Giannetti, No.1-4466 and let her know your feelings on this matter AS SOON AS POSSIBLE. A decision must be made by the middle of August. If you can help in setting up this office, please let Blanche know. CALL BLANCHE ONLY IN THE EVENINGS.

A THOUGHT ON CONSCIOUSNESS RAISING

"We are all oppressed commonly by our experience. If we can come together and share that experience, without judgement even unspoken, then we are committing a truly revolutionary act and suspending or learning to suspend that critical bias imposed upon us by our society and in so doing reach our common humanity." Everywoman.

My body is a weapon
It isn't soft
In many places my hands
are knives and hammers
For bashing in the faces of men
Who won't allow me My Humanity

My legs are locomotives
For getting out of situations
For making distance
Separate me
From all the provocations of men
Who can't forgive me my integrity

My eyes are calculators
For planning out the moves required to get from where I am -- To where I want to be

My body is like my sisters' And we make love with each other. My hands often caress them while we create new world for women who at last have our humanity!

I am a woman for a new time Ticking hours In my sister's mind I am an engine for a new plan
Like a pistol in my sister's hand
