SECOND TERM.

LATIN—Grammar, Reader and Cesar. Twenty weeks.
ALGEBRA—Davies' Elementary. Twenty weeks.
RHETORIC—Barton’s. First five weeks.
PHYSIOLOGY—Hitchcock's. Fifteen weeks.

GENERAL REMARKS.

The Institution bearing the general name of Kalamazoo College embraces several Departments, each to a considerable extent distinct from the others, but all under the general control of the same officers, and in some respects of the same teachers. This arrangement is made with a view of meeting the wants of the various classes resorting here for instruction.

Kalamazoo College proper is designed to furnish instruction to young men in a four year's course of study, similar to that adopted in the best institutions in the other States. It will embrace as wide a range as possible in the following departments of study:

1. English Language and Literature, Rhetoric and Logic.
2. Latin and Greek Languages and Literature.
3. Modern Languages.
5. Physics, embracing Chemistry, Natural Philosophy, Vegetable and Animal Physiology, Geology and Astronomy.
6. Intellectual and Moral Philosophy, Political Economy, and Evidences of Christianity.

The plan adopted by the Trustees contemplates discipline and development, as much as the mere acquisition of knowledge.
FEMALE COLLEGE.

The course in this department extends through four years, and is similar to that of the Male Department, with the omission of the Greek Language, and some portions of the Mathematical course, and the substitution in their place of more of the Modern Languages, English Literature, Music, Painting and Drawing.

In all cases where the studies are the same as in the Male Department, the classes are united, and the recitations made to the College Professors. Arrangements are also made by which those young ladies who prefer to pursue the regular College course in the Male Department can do so.

A sufficient number of teachers is provided, and such facilities are furnished as to make the course of instruction as comprehensive and thorough as in any Female College in the land. It is designed that while the department of Fine Arts and Accomplishments shall receive all due attention, the instruction shall be essentially such as will fit the pupils for usefulness and duty in after life. The object aimed at, is the development of true and noble womanhood.

The new College edifice, occupied by the Female Department, in architectural beauty, convenience of arrangement, taste and elegance of its interior accommodations, is surpassed by no building in the North West.

PREPARATORY DEPARTMENT.

This Department is open to the youth of both sexes, who wish to fit themselves for a College course, or to pursue English or Classical studies, to only a limited extent. It extends through two years, and is arranged with a view to thorough and systematic discipline in the earlier or preparatory part of an educational course, so as to furnish a broad and reliable foundation for future improvement.

NORMAL DEPARTMENT.

The increasing demand for thorough and well qualified Teachers, and the large number of young persons who have hitherto resorted to the Institution at this season to prepare themselves for this profession, have rendered it necessary to organize a Normal Department, to satisfy the public demand.

Hence, at the commencement of each academic year, Teachers' Classes will be formed of young ladies and gentlemen who wish to prepare themselves for teaching. They will be instructed by the regular College Professors and other Teachers provided for that purpose, in the theory and practice of the profession. Lectures will also be given upon the various methods of teaching now in practice, and great pains will be taken to fit young men and young women for the responsible work of educating the children and youth of the state.

A MORE ENTIRE AND DISTINCT DEPARTMENT FOR TRAINING TEACHERS IS CONTEMPLATED.

Measures are in contemplation for a more extensive organization of the Normal Department, and at no distant period. It is to be regretted that the State Board of Education have not yet felt at liberty to give this subject the attention it deserves. A single State Normal School educates, and can educate, but a small portion of the Teachers necessary to supply our public schools. A very moderate appropriation made to each of the several Colleges in the State, would enable them to so enlarge their operations in this Department, as to greatly increase the number of teachers specially trained and fitted for their peculiar work. The Trustees feel confident that this subject will, before long, receive that attention which its importance demands.
COMMERCIAL DEPARTMENT.

Commercial Education is now so well appreciated, and the number wishing to take a thorough course so much larger than ever before, that the College have found it necessary to make arrangements to furnish instruction adequate to a liberal and comprehensive course of preparation for all mercantile and business transactions. The Commercial College which has been in operation in Kalamazoo for several years having closed its operations, the late principal has made arrangements with the Trustees to incorporate it as a Department of the College.

GENERAL INTELLIGENCE.

Time of Commencing.—Students may commence at any time during the session. Each pupil receives special and individual instruction, and will advance in the ratio of his capacity, and according to the industry he manifests.

Evening Sessions will be held from November to April.

An ordinary knowledge and familiarity with the common English branches of study is required before entering upon the commercial course.

Diplomas will be granted to none until the science is completely mastered, and the course of study is fully finished.

EXPENSES.

Tuition for full Commercial course, 35.00
" " Merchant's course, 30.00
" " Ladies' course, 25.00
" " Penmanship, 30 lessons, 5.00
Stationery, for the full course, about 5.00

Tuition invariably in advance.

Board can be had in good families conveniently near to the College and at a reasonable price. Special provision is made for all who may wish to obtain board.

MERIT ROLL.

A full and accurate account is kept of the attendance of each pupil, the grade of his recitations, and of his deportment generally.

These records are collected from the several Professors, and embodied in a permanent form. This will exhibit a complete history of the College course of the several students, and be subject to the inspection of the Trustees and others interested.

MORAL AND RELIGIOUS CULTURE.

We regard that education as incomplete which overlooks the cultivation of the heart, and the training of the moral faculties, while attention is given to the development of the intellectual powers only. Those who are educated ought to be fully qualified to meet all the wants of the social world, which they can never do unless the whole man is educated. While no control is exercised over the youth who resort here, inconsistent with a manly and consistent independence of thought and action, still it will be the purpose of the Faculty to benefit them in every way which will be likely to prepare them for a higher sphere of usefulness and duty. They will endeavor, as far as possible, to act upon individuals as individuals and in such a way as to produce a conviction of personal responsibility in every department of life and action.

A pure morality, and gentlemanly and Christian carriage will be expected from all Students. The public exercises each day are opened and closed by reading the Scriptures and Prayer. Parents and guardians are requested to designate places of worship at which their sons or wards shall attend regularly, on the Sabbath.
LECTURES AND LIBRARY.

The Lectures on Chemistry and Physiology, Political Economy and International Law, Natural Philosophy and Natural Sciences, are accessible to the Students in both the Literary and Scientific course. There are also Lectures of a more general and practical character during each week of the year, which are delivered before all the students connected with the Institution. Additions of valuable books have been made to the Library during the past year, and will continue to be made as the means will allow.

SOCIETIES.

There are two Literary Societies in the Institution. The Sherwood Rhetorical, and The Philolexian.—There is also a Religious Organization, The Missionary Society for Inquiry.

EXAMINATIONS.

There will be a public examination at the end of each term. Students will be examined for admission into the Institution, on the day preceding the commencement of the first term.

DEGREES.

The degree of "Bachelor of Arts" is conferred upon Students who complete the Classical course, and pass the usual examinations.

The degree of "Bachelor of Science" is conferred upon Students who complete the Scientific course, and pass the usual examinations.

The corresponding "Masters' Degrees" will be conferred on graduates of three years' standing, who shall have engaged, during that period, in professional, or in literary and scientific studies.

EXPENSES.

The fiscal year is divided into quarters of ten weeks each.

Modern Languages, Ancient Languages to those not in the regular course, Music, Painting and Drawing, are considered extra, and charged at the usual prices.

Board can be obtained in good families, conveniently near the College buildings. Students can board in clubs or by themselves, at somewhat less expense than in families.

Those who occupy rooms in the College will be expected to furnish their own rooms. As two generally occupy the same room, the expense to each one is not very great.

ADMISSION.

The Institution is open to all who bring with them satisfactory testimonials of good moral character.

Students can enter the Freshman Class by having completed the same course, or one equivalent to that laid down for the Preparatory Classes.
The Academic year is divided into two terms of twenty weeks each.

June 13th, 1862, Examinations commence.
" 16th, [evening] Sherwood Prize Declamations.
" 17th, [P. M.] Address before the Alumni.
" 17th, [evening] Address before Literary Societies.
" 18th, Commencement Exercises.

Aug. 27th, First Term commences.

Jan. 12th, 1863, Exhibition of Eurydelphian Soc.
" 13th, Exhibition of Philolexian Society.
