Kalamazoo, June 1st, 1860

To the Executive Committee on
Ministerial Education

My Report for the 4th Quarter is as follows:

No. of weeks spent in study: 9
(I was sick one week)

Receipt from the Convention during the quarter: $3,000
Whole amount from Convention: $1,050

Other sources during quarter: $17.00

I have spent part of the Sabbaths during the Quarter in Preaching. I have also assisted in organizing a new G. School, visited several others & during the last Quarter especially I have found my work in distributing Tracts & Bibles
peculiarly interesting to myself
and I hope profitable to others.
Thus by the aid of the Convention I have not only been able to complete my course of study but also to perform much other useful work neither of which I could have done without such aid.

May God bless the liberal men who have thus furnished me with means.

B. J. Boynton
