The K-Plan was inaugurated in 1961. It combines ten quarters of year-round on-campus study with a summer vacation or career development (CD) freshman year, a CD sophomore spring, a six-month study abroad junior year, and a senior individualized project (SIP) senior year. The SIP includes a program of independent study and research or an internship experience related to professional objectives. Students used to be separated by their graduation years before the K-Plan. Now alumni separated by decades stand on common ground. They have shared experiences whether they worked in the same office on their CD or they went to the same country on Foreign Study. For "K" students, the world is truly our campus.

SUMMER

Summer . . . when the rising Juniors are sweating through foreign study orientation, and the rising Seniors finally feel like Seniors, ready (?) to dive into SIPs and comps. Classes drag on in the heat, but campus activities during the quarter help to remind everyone that summer can't be all work and no play. Varsity sports give way to intramural softball, frisbee golf and daily beach volleyball matches, whether in Severn's sand court or over in South Haven. Everyone gets to relax as spectators of the USTA Boys' 16-18 Junior Nationals in August, while the "K" triathlon at the end of the quarter gives individuals and teams the chance to participate and have fun. And, of course, there's mud wrestling, serving to break the mid-quarter tedium and generally making a mess of everyone involved, not to mention the showers.

International Fest on the Quad showcases the various worldly experiences and talents of both foreign study returnees and foreign students with lots of food, dancing, music, photos, costumes and customs from around the world — and it isn't even an LACC. Naturally, with the coming of the sun, the Quad also becomes the site of some less-focused events, like the improvised Slip-n-Slide down from Chapel steps, or just sunbathing — uh, studying. And the Quad becomes the focus with the arrival of Quadstock, the noon-to-night fest of music by student and local bands, full of frisbee-throwing, sun-tanning, work-shunning, beverage-drinking student fun. The first Senior TGIF confirms that summer is finally coming to an end, and that the fun has to be put off for a while — at least until Spring.

FALL

Fall Quarter is a time of newness on campus, due mostly to the arrival of the next freshman class. The underclassmen actually rule the campus during this quarter, as the Juniors are away in foreign lands, and most of the Seniors are off SIP-ing. "K" received added freshness with the long-awaited opening of our Dow Science Center. The most exciting event of Fall quarter is always Homecoming. This year, Student Commission sponsored a Bonfire/Pep Rally at the football field on Friday night. The Homecoming Dance was a masquerade ball, held at the Radisson on October 31.

WINTER

Winter — that dreaded “on” quarter. For everybody who isn’t on foreign study, doing a deviant CD or SIP’ing, though, Winter Quarter can be fun, even if it is ten below most of the time. Classes may seem especially long and gray like the weather, but staying inside isn’t so bad. There are lots of activities and, as always, Hornet sports to warm up with.

But sports aren’t the only diversions in the winter. Who can forget housing registration, always full of surprises — this year a lottery? The BSO dinner provides for a real celebration and the Senior TGIF leaves everyone smiling. The major campus activities of the quarter are the dancing and “gambling” of Monte Carlo and the antics at Airband. In between all of the planned activities, though, everyone makes their own fun, whether traying down the quad, making stress angels in the snow, or just kicking back with a few friends and waiting for Spring.

SWIMMING & DIVING

STUDENT LIFE

Beyond K Plan activities, there are many other campus rituals that make life interesting. Streaking the Quad, getting a package at the Union Desk, walking to Munchie Mart, talking to squirrels, snoozing in the Library, driving to Sweetwater's at midnight, and relaxing at Waldo's are just some of the ways we cope with the rigors of campus life. How else would we survive fried perch night at Saga, waiting five hours for a dryer on Sunday afternoon, parking at Neil Post, or spending all day in line for student housing? Isn't it ironic that "K" is known for all the big events, but it's all the little daily rituals that will come to represent our most vivid memories of college?

This book was created for the members of K-93. It is said that a picture is worth 1000 words, may it be true for you. It took us less than 10 weeks to create, less time than a SIP, we hope you enjoy it more. Meredith K. Bigelow, Jason M. Bull, & Rebecca M. Jarvis.

Working hard, or hardly working?
